## Introducing the all new **ML40PLUS** Electro-Hydraulic Linear Actuator

Incorporating 20 years of experience with the well-proven ML40 Hydraulic Linear Actuator and taking advantage of the very latest in design and machining technologies, the all new ML40PLUS features:-

- 30% Less back-drive** than the ML40
- Easy change motor** no loss of oil when removed
- Even lower profile** only 113mm high
- User serviceable** fill & bleed with simple tools
- Fully marinised** stainless steel rod end
- New mounting** quick release rugged design
- 4000 hour** nominal brush life
- Simple installation** directly interchangeable with current ML40 adjustable units and with fitting kit provided

**Quiet – Efficient – Rugged – Powerful**
